Daniel Conway CPA

For State Representative

Daniel Conway, CPA

Businessman, Author

Consultant, Family Man

Lower Property Taxes

"I will call for Substantial property-tax relief for homeowners, not commercial properties, with the state stepping in to keep our schools whole."

Smarter Spending

"I will call for quarterly, simple, understandable performance and cost dashboards that hold our governments accountable for what we are getting and what it is costing."

Stronger Schools

More education dollars should reach the classroom — especially in K–3, where children build their foundation. I support instructional aides in all K-3 Classrooms.

What Residents Are Telling Me

“We bought this bungalow to be closer to our grandchildren, but we can’t afford $6,000 a year in property taxes.” —Homeowners, North Olmsted

“Property taxes have put a starter home out of reach.” — Young couple, North Olmsted

“Dan if something happens to you, I cannot afford $7,400 a year in taxes.” — My wife, Marisa North Olmsted

“We feel so defeated.” — Homeowner, Old Brooklyn

As a CPA I will fight for fair taxes and smarter spending.

Look for me. I will be visiting taxpayers on my bike.

Where is all the money going?

It is what everyone is asking. Cuyahoga County's financial report is over 400 pages. North Olmsted's is over 250 pages. The vast majority of taxpayers cannot understand them and are effectively left in the dark.

You shouldn't need to be a CPA to understand how your tax dollars are spent.
